

List Profile for: Cheap Residential Data

List Type: Consumer

What's This List About?

If you need some cheap residential data to do cold calling, or even a postal campaign, we have access to cheap consumer data that is similar to White Pages whereby it is the person's initial, surname, telephone number and address.

Data is sourced from a call centre and is updated annually.

We will wash against the Do Not Call Register ON THE SPOT as part of the pricing.

The data quality is cheap and cheerful hence the low cost.

As an optional extra we can also clean out disconnected numbers.

So no need for COWBOY data like some list providers offer! Let us clean it for you.

This is no fuss data with no selections or lifestyle information apart from postcode/State.

If you just want cheap stuff to cold call residents, this is the list for you.
