

List Profile for: Fax Broadcasting

List Type: Business

What's This List About?

Our **Fax** service allows you to get your message out quickly to your own fax list.

We also have an excellent Schools Database and a Pharmacy database that we can broadcast your fax to.

Or if you wish to broadcast to select industries we can also source fax data for you. Simply tell us what you need.

Please note our different pricing levels below. ..

Delivery Format & Turnaround Time

Format

Documents for broadcast must be supplied in a Word, TIF or PDF format and must not contain any colour images, large blocks of reverse type, no backgrounds, and minimal greyscale.

Ideally the file should be no larger than 1MB.

For better text quality, we advise you to use black text rather than graphics. Tell your designer it's for black and white fax, not print.

Your list of numbers must be in excel or CSV or TXT format with full number including STD

Your list must also be permission-based or washed against the Do Not Call Register (or we can do that for you).

Under Do Not Call Legislation your document must carry your ABN, company name, address, your fax number, and at least 2 other contacts such as a telephone number or email address. You must also include an 'opt out' line down the bottom of the page so people can fax or email back their fax numbers and stop receiving faxes from you. We can assist with this.

Turnaround

Allow at least 24 hours. Urgent jobs are catered for too.

Payment Terms

Pre payment (unless otherwise negotiated).
Credits given back on all undelivered faxes.

Please note only relevant campaigns to the industry are accepted. We reserve the right to reject any campaign and all are subject to pre-approval.
